## Digital Links & Its Services

Digital Links is a Multimedia / Web Solutions & Process Outsourcing Company based in Chennai, India. Focused on providing a wide range of verticals relating to the web and personalized software applications, KPO & BPO.

Digital Link offers XML-first composition workflow in which only one stream of data (XML data), is used throughout the prepress cycle. All other deliverables – print files, (X)HTML files, Web PDFs – are created from this single data stream, and corrections at any stage are incorporated only into the XML.

The present generation of Publishers, most of them use an XML – first workflow adopts one of the two approaches. The pages are either flowed entirely, automatically, in the typesetting software or manual intervention is allowed to improve the visual appearance.
